## Question 1. (Multi Select)

Which of the following roles can we typically identify regarding software development?

There are three correct answers.

A: Professional Developer

B: Data Modeler

C: Administrator

D: Citizen Developer

E: System Architect

Correct Answer: A, C, D

### Explanation:

- Professional Developer – writes custom code, develops applications, and implements complex solutions.
- Citizen Developer – builds applications using no-code/low-code tools like SAP Build Apps without deep coding knowledge.
- Administrator – responsible for system configuration, user permissions, and maintenance, which is considered part of the development environment in SAP BTP context.
- Data Modeler – focuses on designing data structures, but this is not always counted as a “software development role” in SAP’s standard classification.
- System Architect – designs overall architecture but is a planning/design role, not counted under standard development roles.

## Question 2. (Single Select)

No-code development is primarily intended for those who aren't comfortable with coding their own software.

Choose the correct answer.

A: True

B: False

Correct Answer: A

### Explanation:

---

No-code platforms are designed for business users or “citizen developers” who want to build apps without writing code.

### Question 3. (Single Select)

API is an acronym for "Application Programming Interaction."

Choose the correct answer.

A: True

B: False

Correct Answer: B

#### Explanation:

API stands for Application Programming Interface, not “Interaction.”

### Question 4. (Single Select)

The SAP Business Accelerator Hub offers you a wide range of sandbox APIs for several SAP products like SAP S/4HANA, SAP BTP, SAP SuccessFactors, SAP Concur, and more.

Choose the correct answer.

A: True

B: False

Correct Answer: A

#### Explanation:

The SAP Business Accelerator Hub provides sandbox APIs for multiple SAP products to help developers test and integrate applications.

### Question 5. (Single Select)

The acronym "CRUD" stands for COPY, READ, UPDATE, DELETE.

---

Choose the correct answer.

A: True

B: False

**Correct Answer: B**

**Explanation:**

CRUD stands for Create, Read, Update, Delete — the basic operations for persistent storage.
