Question 1. (Single Select)

Which of the following DataPower appliance form factors supports intrusion detection for physical devices?

- A: IBM DataPower 8x8
- B: IBM DataPower 10x
- C: IBM DataPower x2 Series
- D: IBM DataPower Gateway 8xx5

Correct Answer: C

Question 2. (Multi Select)

Scenario: You are tasked with performing firmware management on a DataPower appliance.

To minimize risk and downtime, what steps should you take to ensure a smooth firmware update process? (Choose two)

- A: Perform a backup of the appliance configuration before proceeding with the firmware update
- B: Disable all services during the firmware update to prevent any disruptions
- C: Verify that the appliance is running the latest firmware version and proceed with the update if needed
- D: Run the firmware update during peak hours to ensure the appliance is fully ready for use

Correct Answer: A, C

Question 3. (Single Select)

How can you perform a full restore of the DataPower appliance from a backup?

- A: Use the backup option from the appliance's web GUI to restore configurations
- B: Manually reconfigure the appliance by copying settings from the backup file
- C: Run a CLI command to restore the appliance settings from an external server
- D: Reboot the appliance and use the restore wizard to automatically apply the backup

Correct Answer: C

Question 4. (Single Select)

Which of the following actions is recommended when the DataPower appliance's memory usage is consistently above 90%?

- A: Reboot the appliance to clear the memory
- B: Increase the memory allocation for the appliance
- C: Quiesce non-essential services to free up memory
- D: Disable logging to reduce memory usage

Correct Answer: C

Question 5. (Single Select)

What is the recommended method for handling administrator passwords in a DataPower appliance environment?

- A: Use default passwords for all users to simplify access
- B: Store passwords in a plain text file for easy recovery
- C: Implement a password vault to securely store and manage passwords
- D: Share passwords among team members to improve management efficiency

Correct Answer: C
