Question 1. (Single Select)

No-code development is primarily intended for those who aren't comfortable with coding their own software.

Choose the correct answer.

A: True

B: False

Answer: A

Explanation:

No-code platforms are designed for business users or “citizen developers” who want to build apps without writing code.

Question 2. (Multi Select)

Which of the following roles can we typically identify regarding software development?

There are three correct answers.

A: Professional Developer

B: Data Modeler

C: Administrator

D: Citizen Developer

E: System Architect

Answer: A, C, D

Explanation:

- Professional Developer – writes custom code, develops applications, and implements complex solutions.
- Citizen Developer – builds applications using no-code/low-code tools like SAP Build Apps without deep coding knowledge.
- Administrator – responsible for system configuration, user permissions, and maintenance, which is considered part of the development environment in SAP BTP context.

- Data Modeler – focuses on designing data structures, but this is not always counted as a “software development role” in SAP’s standard classification.
- System Architect – designs overall architecture but is a planning/design role, not counted under standard development roles.

Question 3. (Single Select)

API is an acronym for "Application Programming Interaction."

Choose the correct answer.

A: True

B: False

Answer: B

Explanation:

API stands for Application Programming Interface, not “Interaction.”

Question 4. (Single Select)

The SAP Business Accelerator Hub offers you a wide range of sandbox APIs for several SAP products like SAP S/4HANA, SAP BTP, SAP SuccessFactors, SAP Concur, and more.

Choose the correct answer.

A: True

B: False

Answer: A

Explanation:

The SAP Business Accelerator Hub provides sandbox APIs for multiple SAP products to help developers test and integrate applications.

Question 5. (Single Select)

The acronym "CRUD" stands for COPY, READ, UPDATE, DELETE.

Choose the correct answer.

A: True

B: False

Answer: B

Explanation:

CRUD stands for Create, Read, Update, Delete — the basic operations for persistent storage.
