Question 1. (Single Select)

Which protocol does Cisco Catalyst SD-WAN use to protect control plane communication?

- A: OMP
- B: STUN
- C: DTLS
- D: IPsec

Correct Answer: C

Question 2. (Multi Select)

In which two ways does PIM dense mode function in the network? (Choose two.)

- A: It waits to forward multicast traffic until a downstream router requests the traffic.
- B: It utilizes the designated forwarder election to avoid multicast packet loops.
- C: It receives traffic from only one Reverse Path Forwarding interface.
- D: It forwards multicast traffic on all interfaces until a downstream router requests that forwarding stop.
- E: It uses a push method, and fallback occurs when RP information is lost.

Correct Answer: A, D

Question 3. (DRAGDROP)

Drag and drop the Cisco Catalyst Center (formerly DNA Center) northbound API characteristics from the left to the right. Not all options are used.

- referred to as Intent API
- multivendor focus
- uses JSON exclusively
- RESTful API based on HTTP methods
- supports NETCONF, SSH, SNMP, and others

DNA Center northbound API

-
-
-

Correct Answer:

- referred to as Intent API
- multivendor focus
- uses JSON exclusively
- RESTful API based on HTTP methods
- supports NETCONF, SSH, SNMP, and others

DNA Center northbound API

- referred to as Intent API
- RESTful API based on HTTP methods
- supports NETCONF, SSH, SNMP, and others

Question 4. (Single Select)

Refer to the exhibit.

```
def main():
    print("The answer is " + str(magic(5)))

def magic(num):
    try:
        answer = num + 2 * 10
    except:
        answer = 100
    return answer

main()
```

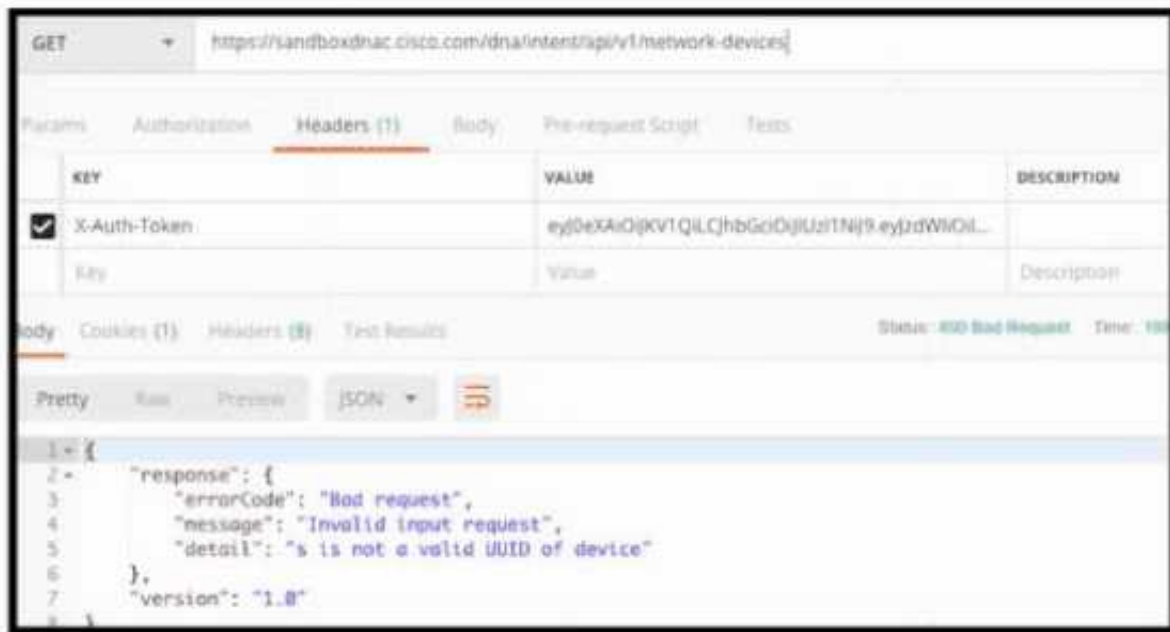

Refer to the exhibit. What is displayed when the code is run?

- A: The answer is 5
- B: The answer is 25
- C: The answer is 100
- D: The answer is 70

Correct Answer: B

Question 5. (Single Select)

Refer to the exhibit.

Refer to the exhibit. POSTMAN is showing an attempt to retrieve network device information from Cisco Catalyst Center (formerly DNA Center) API. What is the issue?

- A: The token has expired
- B: The URI string is incorrect
- C: Authentication has failed
- D: The JSON payload contains the incorrect UUID

Correct Answer: D
