“After releasing iRemover – iPhone Password Unlocker, we’ve got so much feedback from our users requesting for one same thing – the solution to remove iCloud Activation Lock. They might have got an iCloud locked iPhone without knowing the Apple ID and password, saw the Activation Lock screen after restoring a backup but forgot the password, found Activation Lock is enabled on iPad with an unknown Apple ID, or got locked for different reasons. We want to help them out, in a way fast, easy, and friendly,” said Frank Kong, CEO of iMobie. “After several months of development and testing, here we’ve finally welcomed iRemover – iCloud Activation Unlocker.”

Have An In-depth Look at Highlight Features:

Bypass iCloud Activation Lock without Apple ID and Password

With a few simple clicks, iRemover bypasses iCloud Activation Lock right away, no Apple ID or password required. Users can then freely download and enjoy music, movies, TV shows, podcasts, and apps on iPhone/iPad/iPod touch, and never worry about their devices being tracked, locked, or erased remotely.

Check The Status of iOS Device to Avoid Troubles

iRemover can check the status of iOS devices, and generate a detailed report. If Activation Lock is turned on? Is it linked to an Apple ID? Any hardware replacement? How’s the battery health? Whether it’s jailbroken? And more. With this comprehensive report, users can avoid buying a troublesome second-hand device.

Find Out Forgotten Apple ID with One Click

Forgot the Apple ID that is linked to iCloud Activation Lock, and cannot get it back by any means? No worries. iRemover can find out the Apple ID with one simple click.
