## Question 1. (DRAGDROP)

You need to select connectors for the app.

Which types of connectors should you use? To answer, drag the appropriate connectors to the correct requirements. Each connector may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

| Connectors                                    | Requirement                     | Connectors |
|---|---------------------------------|------------|
| Create a custom connector.                    | View full registration records. |            |
| Use an AppSource connector.                   | View customer names.            |            |
| Use a native application function.            | View daily registrations.       |            |
| Create a connector with a Postman collection. |                                 |            |

## Correct Answer:

| Connectors                                    | Requirement                     | Connectors                         |
|---|---------------------------------|------------------------------------|
| Create a custom connector.                    | View full registration records. | Create a custom connector.         |
| Use an AppSource connector.                   | View customer names.            | Use an AppSource connector.        |
| Use a native application function.            | View daily registrations.       | Use a native application function. |
| Create a connector with a Postman collection. |                                 |                                    |

## Question 2. (HOTSPOT)

You need to select data types for required fields.

Which data types should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

| Field             | Data type   |  |   |      |  |            |  |                   |  |                   |  |
|-------------------|---|--|---|------|--|------------|--|-------------------|--|-------------------|--|
| Division          | <table border="1"><tr><td></td><td>▼</td></tr><tr><td colspan="2">Text</td></tr><tr><td colspan="2">Option Set</td></tr><tr><td colspan="2">Unique Identifier</td></tr><tr><td colspan="2">Owner</td></tr></table>  |  | ▼ | Text |  | Option Set |  | Unique Identifier |  | Owner             |  |
|                   | ▼   |  |   |      |  |            |  |                   |  |                   |  |
| Text              |   |  |   |      |  |            |  |                   |  |                   |  |
| Option Set        |   |  |   |      |  |            |  |                   |  |                   |  |
| Unique Identifier |   |  |   |      |  |            |  |                   |  |                   |  |
| Owner             |   |  |   |      |  |            |  |                   |  |                   |  |
| End date          | <table border="1"><tr><td></td><td>▼</td></tr><tr><td colspan="2">Text</td></tr><tr><td colspan="2">Duration</td></tr><tr><td colspan="2">Date Only</td></tr><tr><td colspan="2">Option Set</td></tr></table>       |  | ▼ | Text |  | Duration   |  | Date Only         |  | Option Set        |  |
|                   | ▼   |  |   |      |  |            |  |                   |  |                   |  |
| Text              |   |  |   |      |  |            |  |                   |  |                   |  |
| Duration          |   |  |   |      |  |            |  |                   |  |                   |  |
| Date Only         |   |  |   |      |  |            |  |                   |  |                   |  |
| Option Set        |   |  |   |      |  |            |  |                   |  |                   |  |
| Tournament owner  | <table border="1"><tr><td></td><td>▼</td></tr><tr><td colspan="2">Text</td></tr><tr><td colspan="2">Lookup</td></tr><tr><td colspan="2">Option Set</td></tr><tr><td colspan="2">Unique Identifier</td></tr></table> |  | ▼ | Text |  | Lookup     |  | Option Set        |  | Unique Identifier |  |
|                   | ▼   |  |   |      |  |            |  |                   |  |                   |  |
| Text              |   |  |   |      |  |            |  |                   |  |                   |  |
| Lookup            |   |  |   |      |  |            |  |                   |  |                   |  |
| Option Set        |   |  |   |      |  |            |  |                   |  |                   |  |
| Unique Identifier |   |  |   |      |  |            |  |                   |  |                   |  |

**Correct Answer:**

| Field            | Data type  |
|------------------|--|
| Division         | <div style="border: 1px solid gray; padding: 2px;"> <div style="background-color: #f0f0f0; padding: 2px; display: flex; justify-content: space-between; align-items: center;"> <span></span> <span>▼</span> </div> <div style="border-top: 1px solid gray; padding: 2px;">Text</div> <div style="border-top: 1px solid gray; padding: 2px; border-bottom: 2px solid red;">Option Set</div> <div style="border-top: 1px solid gray; padding: 2px;">Unique Identifier</div> <div style="border-top: 1px solid gray; padding: 2px;">Owner</div> </div>  |
| End date         | <div style="border: 1px solid gray; padding: 2px;"> <div style="background-color: #f0f0f0; padding: 2px; display: flex; justify-content: space-between; align-items: center;"> <span></span> <span>▼</span> </div> <div style="border-top: 1px solid gray; padding: 2px;">Text</div> <div style="border-top: 1px solid gray; padding: 2px;">Duration</div> <div style="border-top: 1px solid gray; padding: 2px; border-bottom: 2px solid red;">Date Only</div> <div style="border-top: 1px solid gray; padding: 2px;">Option Set</div> </div>       |
| Tournament owner | <div style="border: 1px solid gray; padding: 2px;"> <div style="background-color: #f0f0f0; padding: 2px; display: flex; justify-content: space-between; align-items: center;"> <span></span> <span>▼</span> </div> <div style="border-top: 1px solid gray; padding: 2px;">Text</div> <div style="border-top: 1px solid gray; padding: 2px; border-bottom: 2px solid red;">Lookup</div> <div style="border-top: 1px solid gray; padding: 2px;">Option Set</div> <div style="border-top: 1px solid gray; padding: 2px;">Unique Identifier</div> </div> |

**Explanation:**

<https://docs.microsoft.com/en-us/powerapps/maker/data-platform/types-of-fields>

**Question 3. (Multi Select)**

You need to configure the system to support automation for referrals.

What are two possible ways to achieve the goal? Each correct selection presents a complete solution.

NOTE: Each correct selection is worth one point.

A: Azure Function that uses the Discovery service

B: workflow extension

C: Azure Function that uses a listener

D: Power Automate flow

**Correct Answer: C, D**

### Explanation:

<https://docs.microsoft.com/en-us/dotnet/api/system.io.filesystemwatcher>

<https://docs.microsoft.com/en-us/power-automate/>

### Question 4. (ORDERLIST)

You need to resolve the performance issue with the Total Billed customer plug-in.

In which order should you perform the actions? To answer, move all actions from the list of actions to the answer area and arrange them in the correct order.

| Actions  | Answer Area |
|--|-------------|
| Run the total billed customer time query.  |             |
| Attach the debugger to total billed customer time.                                       |             |
| Correct the failing plug-in code and compile.  | ⏪           |
| Unregister the old version of the plug-in and reregister the new version of the plug-in. | ⏩           |
| Register and deploy the plug-in assembly.  | ⏪<br>⏩      |

A: Run the total billed customer time query.

B: Attach the debugger to total billed customer time.

C: Correct the failing plug-in code and compile.

D: Unregister the old version of the plug-in and register the new version of the plug-in.

E: Register and deploy the plug-in assembly.

**Correct Answer: B, A, C, E, D**

### Explanation:

<https://docs.microsoft.com/en-us/dynamics365/customerengagement/on-premises/developer/reg>

**Question 5. (Single Select)**

You need to determine the primary cause of the issue reported by interns when they use the app.

What is the primary cause?

A: Interns have the System Customizer security role but need the Environment Maker security role.

B: Interns have the Common Data Service User security role but need the Environment Maker security role.

C: Interns have the Environment Maker security role but need the Common Data Service User security role.

D: Interns have the Environment Maker security role but need the System Customizer security role.

E: Interns have the Environment Maker security role but need the Delegate security role.

**Correct Answer: D**

**Explanation:**

Scenario: Interns can create apps but cannot interact with their own data.

Environment Maker role: Can create new resources associated with an environment, including apps, connections, custom APIs, gateways, and flows using Microsoft Power Automate.

However, this role doesn't have any privileges to access data within an environment.

System Customizer role: full permission to customize the environment. However, users with this role can only view records for environment entities that they create.
