Question 1. (Single Select)

What is Concur Request?

Choose the correct answer.

- A: A preauthorization tool
- B: An expense reporting tool
- C: A purchasing tool
- D: An accounts payable tool

Correct Answer: A

Explanation:

- Concur Request is used to submit, review, and approve requests for planned expenses before they are incurred.
- It ensures budget control and compliance before spending.
- It is not primarily an expense reporting, purchasing, or accounts payable tool.

Question 2. (Multi Select)

Why would a customer enable Quick Requests? (Choose two)

There are two correct answers.

- A: To eliminate receipts.
- B: To eliminate manager approvals.
- C: To save the user time.
- D: To simplify the request creation process.

Correct Answer: C, D

Explanation:

- Quick Requests streamline the process of creating requests.
- They reduce steps and simplify data entry, saving time for employees.
- They do not eliminate receipts or approvals; approvals and documentation are still required.

Question 3. (Single Select)

What are segments?

Choose the correct answer.

- A: Expenses that are part of a travel itinerary
- B: Expenses that will be allocated
- C: Expenses that do not require approval
- D: Expenses that have been preapproved

Correct Answer: A

Explanation:

- The Print/Share menu is designed to share request information externally or print it.
- It does not save the request (saving happens automatically) or route it to managers (routing happens through the workflow).

Question 4. (Multi Select)

What types of users frequently use travel allowances? (Choose two)

There are two correct answers.

- A: Residents of some countries
- B: Users who travel more than once per month
- C: Users without a corporate card
- D: Government employees or contractors

Correct Answer: A, D

Explanation:

- Travel allowances (per diem or flat allowances) are often used in certain regions or for government employees where regulations dictate fixed reimbursement.
- Frequent travelers or users without a corporate card may use allowances, but allowances are specifically linked to country rules or government contracts.

Question 5. (Multi Select)

Why might a user use the Print/Share menu? (Choose two)

There are two correct answers.

- A: To ensure that the request is saved properly
- B: To e-mail the request to a stakeholder
- C: To route the request to the proper manager
- D: To generate a paper copy of their request

Correct Answer: B, D

Explanation:

- The Print/Share menu is designed to share request information externally or print it.
- It does not save the request (saving happens automatically) or route it to managers (routing happens through the workflow).
