Question 1. (Single Select)

Which of the following statements about UIS HCI authorization is correct?

- A: Only require to apply for UIS Manager authorization code
- B: Only require to apply for UIS CAS and ONEStor authorization codes
- C: If HCI deployment is used, apply for ONEStor authorization
- D: UIS, CAS, and ONEStor have different authorization codes

Answer: D

Question 2. (Multi Select)

According to which of the following factors, the UIS HCI platform can trigger dynamic resource scheduling (DRS) to automatically balance VMs on hosts in the cluster?

- A: CPU
- B: Memory
- C: Storage
- D: Network

Answer: A, B, C

Question 3. (Multi Select)

Which of the following statements about UIS HCI distributed storage replica redundancy mechanism are correct?

- A: Support a minimum of one replica
- B: Support a minimum of two replicas
- C: Support a maximum of five replicas
- D: Support only three replicas

Answer: B, C

Question 4. (Multi Select)

Which of the following statements about functions of UIS HCI 7.0 products are correct?

- A: Provide storage services of different types, such as block, object and file
- B: Support management of multiple clusters
- C: Can scale up nodes that only contain computing resources
- D: Do not support online scale-up of shared storage volume

Answer: A, B, C

Question 5. (Multi Select)

Which of the following statements about UIS CloudOS deployment are correct?

- A: After UIS CloudOS components are deployed through the component interface of UIS standard edition, you can log in to the enterprise edition interface and incorporate built-in sites immediately
- B: UIS CloudOS stand-alone deployment only needs to reserve one SSD on one host.
- C: UIS CloudOS can incorporate UIS standard edition as a built-in site
- D: In the case of cluster deployment, it is not necessary to create shared storage volumes for UIS CloudOS, such as postgres, elastic search, etc

Answer: C, D
